Welcome! We are very happy to announce a few of our Spring Community Enrichment Classes at our St. Augustine and Palatka Campuses. The following classes are just a glimpse of the offerings at First Coast Technical College... computer skills, arts and special interest classes are all in our plans. First Coast Technical College is a great avenue for learning at all ages, both for career development and personal enrichment. Whether you are looking to advance in your career, acquire new skills, connect with others or just learn for the fun of it, adults of all ages can stay engaged at FCTC.

We are always looking for new ideas and suggestions, so we can bring enrichment and knowledge to all interested adults in our communities. If you or someone you know has a special talent or skill that you’d be willing to share, please give me a call at 904-547-3353, or email me at comm.enrich@fctc.edu.

Sincerely, Melissa Revels
Community Enrichment Coordinator
